

SPACESHIP EARTH WORLD MAP

The Dymaxion Sky-Ocean map shows our planet as it really is — one-world island in a one-world ocean — without any visible distortion of the relative shapes and sizes of the land and sea areas, and without any breaks in the continental contours.

Irradiated foods must be labeled, without expiration. This should be conspicuous (i.e. produce depts. should mark which items are irradiated - the shipping containers are not visible to consumers) and include ingredients which have been irradiated. Thank you.

Spaceship Earth and Dymaxion™ Sky-Ocean Map © Buckminster Fuller, 1982
